Irving K Barber Learning Centre (IKB) features many works of art to “inspire a sense of wonder and possibility”.

To solve this Mystery, walk up to where the chandelier begins.

How many panels are in the glass chandelier?

The Automated Storage and Retrieval System (ASRS) was the first of its kind in Canada. The robotic arm brings books out from storage and into the hands of visitors!

Peek through our window on the north side and guess the sheer quantity of books that can be stored here.

A) 5,200  B) 26,000  C) 483,000  D) 1.8 million

Although now an iconic landmark, the Clock Tower was added in 1968 (that’s younger than your grandparents!). It features 6 different types of bells to give it’s distinctive “ding dong”.

What colours are the stained glass panels?

The Heritage Core was first built in 1925, and was known as the Main Library. Although it’s been through quite a few renovations, many of the original elements have been preserved, including the stained glass windows.

Look for the quiet room where computers abound, and each seat is lit by the light of a lamp.

How many books are on the wall?

IKB is dedicated to supporting academic excellence, collaborative student learning, and scholarly discussion.

To put all your clues together, head underground and scour our bulletin of thoughts. Find the poster that puts it all into place.

Not sure where to go? Follow the arrows!

The final question:

How many visitors does UBC Library have a year?
